Users/visitors/readers (referred to from now on as simply users) are welcome to do ***free*** download of NOT-FOR-PROFIT-for-author Who am I? I am I ... book linked below having most, **but not all**, of the content of this iami1.wordpress.com blog. Users can print and even sell the printed book/document if they want – details of that permission are given in the initial part of the document. All of this author's, Ravi S. Iyer's, content in the Who am I? I am I ... book documents below can be ***freely reused*** with details of the free reuse permission/license being specified in the initial part of the document.

I have ensured, to the best of my knowledge, that all content of others (NOT MY CONTENT) in this book including Wikipedia and Wikiquote content, is legally permissible to include in this book and to be printed as part of this book. Interested readers may want to visit my related blog post: 'Who am I? I am I ... book when sold at some (above-zero) price: My analysis of copyright issues with usage of Wikipedia content in it' here: <http://tiny.cc/89hzsy> [Long URL: <https://iami1.wordpress.com/iami1-printed-blogbook-my-analysis-of-copyright-issues-with-usage-of-wikipedia-content-in-it/>].

Note that while I have done some level of checking for errors, I have not spent and don't want to spend too much time on it. I expect readers to be indulgent with my errors, perhaps take the pains to inform me about it so that I can fix the errors in the blog and/or in future versions of the Who am I? I am I ... book. This is the do and release quickly and don't mind some errors kind of approach of software development, where errors are reported by users which then leads to fixes in the software. I have applied this approach of software development to preparing this Who am I? I am I ... book document.

E-book version **WITHOUT ISBN** (NOT ideal for printing on paper to create a paper book); A5 size (5.8" x 8.3"); 125 pages; Version/date 21st June 2018. This version can be used for submission to e-book websites that auto-generate other e-book formats like EPUB, MOBI and TXT. I am using the ISBN number allotted by isbn.gov.in for the e-book for PDF format only as my understanding of their guidelines is that each e-book format must have a separate ISBN. I applied for and got only one ISBN number for my e-book. I also got a separate ISBN number for the paperback version of this book.
